Access arrangements

Access to residents and businesses will be maintained through gateways managed by traffic marshals. Residents will need to stop at the gateways and will be given safety instructions such as speed limit restrictions prior to entering the closure. If our teams need access or have to move machinery out of the way there may be short delays while this is happening.

We will always do our best to accommodate day-to-day requirements of people affected by our works, and access will be maintained as much as possible for those people directly impacted by the closure.

Emergency access will be maintained at all times.

Working safely

Please be aware of the following hazards while the resurfacing is taking place.

- Uneven road surface where the old surface has been removed
- Raised manholes, gullies, and other service boxes.
- Varying kerb heights when stepping off the footway.

All of our sites will be appropriately risk assessed and have strict safeguarding measures in line with current Health and Safety and Public Health England guidance to ensure the safety of residents and our staff.

Please be kind to the workforce and observe any signs or safety fencing that is in place. Our teams are working within the guidelines laid out by the government for construction works, and we are proud to be able to continue to keep on top of our commitments to improve road standards across the county.

delayed by cold temperatures & heavy rain.

During the ongoing situation with COVID-19 we will continue to carry out our programmed resurfacing works while we have the available resource and material to do so.

However, if the situation changes it may result in works being postponed or cancelled at short notice and will do our best to update the advance notice boards on our sites.

Getting in touch

For enquiries in relation to this scheme, please email surfacing@cormacltd.co.uk

You can report an issue on a road, highway or footway on the Cornwall Council website:

<https://www.cornwall.gov.uk/reportroad>

If there is an issue which is a threat to public safety, please telephone **0300 1234 222** (24 hour service) giving details of the location.
