

Agenda item 242 –

To consider (i) the purchase of dog poop bag stations and if agreed
(ii) to agree the location of the dog poop bag station

This item was put on the agenda follow suggestions from Cllr Polák and Cllr Beadnall

Supplier & description	Prices
<p>JRB Enterprises</p>   <p>The Dog Glove™ Dispenser can now be seen in thousands of parks all over Britain. A handy way of delivering dog-poop bags when and where needed, this revolutionary new system leaves no excuses for irresponsible dog owners to not pick up after their dogs. Simple to install, simple to use, specially designed bags have made these dispensers an essential tool in the fight against dog pollution.</p> <p>The unique design of the dispenser allows only one bag at a time to be pulled out, helping to prevent any wastage problems. Constructed from rust resistant Zintec steel the dispenser is weatherproof and vandal resistant. The locking front access permits easy filling. It is simple to mount on a post, wall, building or dog bin.</p> <p>Size: 460mm x 160mm x 230mm Colour: Green or Red (other colours by arrangement) Fixing options: Various Brackets are available for fixing, including walls, posts and banding</p> <p>https://jrbenterprises.com/product/dog-bag-dispensers/</p>	<p>£79 each plus £8.50 Carriage</p> <p>We do a 2.5m galvanised post and with fixings they are £28.50+vat each.</p>
<p>Glasdon UK</p>   <p>The Retriever City Sack Dispenser encourages owners to pick up after their dogs in external areas such as parks, recreational areas and housing estates. Available in Black, Anthracite Grey, Deep Green or Red as standard.</p> <p>* Complete with sticker kit & Groundlock fixing system with post suitable for installation into soft ground.</p> <p>*The power tool attachment will be utilised with a drill to tighten the banding ensuring a flush fixing to the post.</p> <p>There's a quick video here</p> <p>There's a quick video here:</p>	<p>£91.56 - the Retriever City™ Sack Dispenser in any of the 4 colours £89.31 - the ground-lock fixing system = £180.87 * £27.51 - Installation tool for above fixing system (1 free if 3 ground-locks ordered) £33.14 - 4 x 250 sacks (1000 in total) = £60.85</p> <p>If you have a post you wish to strap to, you can just order with post mounting fixing components and then you will need banding and a tool , as follows:</p> <p>Tamtorque banding kit: (for post diameter 70-100mm) @ £16.72+VAT (for post diameter 130-190mm) @ £20.10+VAT Tamtorque power tool bit @ £9.90+VAT*</p>

To consider (i) the purchase of dog poop bag stations and if agreed
(ii) to agree the location of the dog poop bag station

Feedback from Parish Clerks

Good morning has anyone purchased JRB Enterprises. My Council will be considering purchasing poop bag dispensers. We have an account and usually buy from Glasdon but JRB Enterprises seem a lot cheaper and the style looks good. I have heard they work well in other areas and a dog walker tells me she even fills them up herself

JRBENTERPRISES.COM

Dog Bag Dispensers - JRB Enterprises Ltd

Weatherproof and vandal resistant. Easy mounting on wall, post or dog-bin. One-per-pull minimises wastage. Locking front access for filling.

- We have got lots of these dispensers and really pleased with them. 😊
- We've got 5 of these. Really pleased with them 👍 We purchase the bags from them regularly as well, they are delivered quickly and provide excellent customer service 👍👤💩
- Have bought 3 but not yet installed - they look good. If you call them they sell the 40mm square posts too - ie the post you install them on. The posts aren't on the website.
- Yes we use them! Make sure you get the single bag dispensers though as we have some older models (possibly from another supplier) where chunks of bags can be taken at once. Their cheaper economy bags are very good and customer service too, very relaxed... See more
- We have those dispensers and have had them for around 10 years. Had good service from them but understandably some are now beginning to rust at the hinges. Bag supply service from them is
- Yes we use them! Make sure you get the single bag dispensers though as we have some older models (possibly from another supplier) where chunks of bags can be taken at once. Their cheaper economy bags are very good and customer service too, very relaxed abs easy to deal with.
- We have those dispensers and have had them for around 10 years. Had good service from them but understandably some are now beginning to rust at the hinges. Bag supply service from them is amazing. Would definitely recommend them.
- We use JRB, really helpful and process refill orders really quickly.
- We use them and can recommend products and service
- Yes, we use them and they are good quality and easy to fill
- I'm keen on these for our recreation ground however Councillors feel they would be abused and/or vandalised. Has anyone had issues like these?
- We have some dispensers which are emptied almost as soon as they are filled. Now councillors only fill half full and on a set timetable, ie not the minute the last one goes. We've appealed to people not to, public funds etc but it does happen still.
- Yes - have these in two of my Councils. Three units are over five years old and going strong.

Agenda item 242 –

To consider (i) the purchase of dog poop bag stations and if agreed
(ii) to agree the location of the dog poop bag station

Recommendations from Cllr Beadnall

I think the retriever city sack dispenser would be the better option to go with would not need the stand either just the equipment to mount to posts and I think we would only need 4 dispensers

- On the dam by the sluice gates
- One at the entrance to the woodland path
- One on the railings bottom of West Street
- On the railings on the bridge into West Street car park.

The usual places for people to walk their dogs.
