to me, Nicky

Morning,

Can this go on the agenda please.

The VETs are looking to place a circle under one of the benches having replaced the membrane first, then replace the chippings. We will also need the membrane and a small amount of cement.

We would also like to remove the container at Hounster prior to re doing the boat.

Sharon

Subject: RE: Vets

Hi all

Attached details of the patio circle discussed to go under the picnic benches in the Tanyard – having measured the benches we need the 2.56 meter size, price, £224.99 each (includes VAT) so price net to the council £187.49.

Installing these will improve the look and should help to cut down on the litter problem – at least they can be swept, unlike the chippings.

Regards

Don Wood
