

The Rame Green Guide – Correspondence list / comments received

Date & time of email	Comments received
05/12/2021 @ 20:57	<ul style="list-style-type: none"> We are disappointed that parishioners in Millbrook will miss out on the opportunity for each household to have a copy of the Rame green guide. The reasons put forward for not distributing it to every household rather short sighted. There are many people in Millbrook who do not have the opportunity to access the internet. The publication of this green guide cannot be seen as any other than a positive and engaging document for the benefit of the parishioners.
08/12/2021 @ 08:42	<ul style="list-style-type: none"> high quality, comprehensive and informative guide in ways in which we can all make simple changes.
08/12/2021 @ 11:41	<ul style="list-style-type: none"> I had been looking forward to receiving my copy of the Green Guide. I understand the good intentions of Millbrook Parish Council in not wanting to waste paper and to put 200 copies (see note i below) into the Rame Centre. A publication as important as this, given the parish councils recognition of climate change, should, I feel, be delivered to every house in the village.
08/12/2021 @ 17:08	<ul style="list-style-type: none"> Some busy working people shop near where they work so don't always make it to the village.
08/12/2021 @ 22:19	<ul style="list-style-type: none"> I think the majority of the people who will pick one up will be those who are already following a green(ish) lifestyle and will be attracted to it. It's the people who would not notice it, or indeed be attracted, who might benefit from a door to door drop.
08/12/2021 @ 22:35	<ul style="list-style-type: none"> I am sharing my deep disappointment that the Rame Green Guide is not being delivered to all households in Millbrook. Door to door deliveries are proven to share information far more effectively in local populations such as ours, where digital exclusion effects the majority of households. As I understand it, the Rame Green Guide is aimed at an audience who, arguably, are those that are unlikely to reach out to make a special trip to the Rame Centre to pick up a guide. Surely, it was created with the intention of educating and influencing those at the very beginning of their eco-awareness journey? Aren't those who might visit the Rame Centre and pick up a copy likely to be already 'keen to be green'? By offering it as a handout here, are you truly supporting the sharing of this vital information with the people who could really make the biggest difference within our local population to help Rame become a greener and more sustainable community? I ask you all as councillors to reconsider your decision. To make the right decision to share this fantastic publication, not just with those who know where to find it, but with everyone in the community, through door to door delivery, so that everyone in Millbrook, knows and has the information they need to make better, greener choices, to help Millbrook become a healthier, happier, more sustainable place to live
09/12/2021 @ 09:38	<ul style="list-style-type: none"> I am very disappointed that it has not been delivered to the residents of Millbrook. Please reconsider your decision and let everyone have access to this important information.
09/12/2021 @ 12:54	<ul style="list-style-type: none"> I think the majority of the people who will pick one up will be those who are already following a green(ish) lifestyle and will be attracted to it. It's the people who would not notice it, or indeed be attracted, who might benefit from a door to door drop.
10/12/2021	<ul style="list-style-type: none"> I was disappointed to learn that millbrook parish council had decided not to deliver

@ 21:15	<p>a copy of the guide to each household. I think everybody would read some of it if it arrives at the house .</p> <ul style="list-style-type: none"> • By contrast, expecting people to seek it out at one of the venues would be likely in my opinion to reach a much smaller readership. I think it is important to show people how many ways The climate crisis affects us, while at the same time showing the myriad ways that one can get involved to improve things . • I would hope the council might reconsider.
12/12/2021 @ 15:17	<ul style="list-style-type: none"> • I try to live by Environmental & Eco principles as much as humanly possible - and I can find more avenues to explore from this info. • I know that producing a guide for households who might not use it or could source the info elsewhere might be a waste of resources, but overall I feel that the outcome would be more good than bad - not just because of the behaviour change it might bring but also because it demonstrates the importance that local government and councillors place on changing our habits and supporting our local green economy, and that this must become the new normal.
15/12/2021 @ 16:03	<p>The Peninsula Trust</p> <ul style="list-style-type: none"> • We had an Exec meeting today and they wanted to pass on how impressed they were with the Green Guide and for Millbrook Parish Council making it available for us to have copies in the Rame Centre. We have had to restock twice! • If the decision is made to produce this for all of the households in Millbrook (reaching people who may not access it) then we would we would be happy to get a group of volunteers together to deliver around the Village.

i A handful of copies were distributed to the Rame Centre with additional copies to other locations in Millbrook.

Millbrook Parish Council - Cornwall
Published by Karenza Heald · Yesterday at 09:15 · 🌐
