Describe the overall aim of your organisation and the activities or services it provides.	<p>Cornwall Air Ambulance provides emergency pre-hospital critical care for some of the most time-critical, seriously injured, or ill adults and children. We are tasked to provide treatment at the scene and rapid hospital transfer often to specialist's unit out of the county.</p> <p>Cornwall particularly lends itself to needing an air ambulance as land ambulances can sometime struggle to reach incidents in the more rural parts of the county – especially during the summer months when demand increases, and the smaller country roads become more congested. Remote cliff tops, beaches and moors are more easily accessible by helicopter. Transferring a patient to a hospital and the specialist treatment and equipment they need; every minute can count and the speed at which the air ambulance can fly can sometimes mean the difference between life and death. Not only that but the minutes that have been saved can vastly improve the quality of the patient's life after the accident or medical emergency.</p>

## ABOUT YOUR PROJECT

<p>Please outline the details of the project for which you are seeking funding from the Council (up to 300 words)</p>	<p>We have purchased with the help of Donors, a new AW169 helicopter and we have purchased the night flying equipment that allows us to fly 19 hours a day. In Cornwall during 2021, we attended 497 Medical Incidents, 548 Trauma Injuries, 326 Cardiac emergencies, 166 road traffic collisions and 156 Serious Falls. We also made 16 inter-hospital transfers.</p> <p>However, to ensure the high levels of Critical Care are delivered to our patients, this would not be possible without the skill of the clinical team. This team of specialist paramedics and doctors need to undertake continuous training to ensure skills are regularly practiced and new skills are developed to benefit our patients. Our future developments will include enhancing our training capabilities to develop our paramedics as Specialists in Critical Care and in further Advanced Level of clinical practice supported by an increasing team of specialist consultants to ensure that we can continue to bring the highest levels of care to all our patients. Training is essential ensuring availability throughout the extended hours and required to continue to keep up with all the changes, evolving emergency medical care field. i.e., Ketamine, surgical procedures etc</p> <p>We are asking for support from local Cornish Parish and Town Councils to help fund our critical care paramedics training to the amount of £500+ at your discretion</p>
<p>Who will benefit from the project?</p>	<p>The community of Cornwall and the Isles of Scilly and tourists</p>
<p>Approximately how many of those who will benefit are parishioners?</p>	<p>We provide pre-hospital critical care for some of the most critical, seriously injured or ill adults and children in Cornwall and the Isles of Scilly.</p>
<p>Amount of funding requested</p>	<p>to help fund our critical care paramedics training to the amount of £500+ at your discretion</p>
<p>Overall cost of your project</p>	<p>Detailed Breakdown:          Post grad training for two new critical care paramedics.          Training costs £2760 x 4 units = £11040.00          Training is essential, ensuring resource is available throughout the extended hours</p>
<p>If the total cost of your project is more than the grant request, how will the balance be financed?</p>	<p>We are applying to all parish and town councils for help to fund this training .</p>
