The Company can supply a mix of white and blue bottles for the same price.

A tree is planted with every order.

Offices in Plymouth & St Austell. Registered office in St Austell.

d) Gloweasy Promotions

Image will be provided if an order is placed.

"We will need to be sent this logo as vector file from you at some point. Your logo is fine. If we were to do this job I would look for a white bottle of good quality and pantone match TQJ logo with MPC logo the same purple. I would also run the design portrait on the bottle to maximise the logo size. I would look for a good quality bottle not something that is readily available from any promo co. I know you spoke to Brendan about size so I will catch up with him after Easter. All the bottles I recommend will be unique eco-friendly and made from things like sugar cane / bamboo etc."

Clerk's recommendation: Purchase from water bottles fro Fluid Branding.
