Cornwall Council Transport W2601033	VAS Vehicle Activated Sign - The Narrows Hounster Hill	24/3/26 Following an operation, Kate is currently off work. Do you know the latest situation regarding the VAS. Has it been checked lately? I have not checked it myself but since the video (apart from Roger Bews who may have contacted you directly!) no parishioners have reported any further issues to me. Kind Regards Karenza 25/3/26 Hi, I asked for a few more seconds to be added to the timer after the vehicle travelling down the hill triggers the sensor. I mentioned to Kate we just need to be careful we don't have the timer set too long, as vehicles waiting at the bottom of the hill may think another vehicle is coming down the hill when it has already gone through (hope that makes sense).Regards

		<p>Programme Development & Delivery Lead Cornwall Council 10/4/26 Thank you for reporting an issue. Your report has been passed to our contractors for attention. 9/4/26 - At 11:10am a driver was travelling up from Dodbrook towards Hounster Hill. A driver was waiting to drive up from West St. The driver from West St saw there were no cars driving down Hounster Hill, so proceeded to drive up the hill. The driver from Dodbrook followed. There were no cars coming down Hounster Hill but the VAS sign was activated. 10/4/26 If you wish to keep a track of this, please make a note of the reference number. We pass all reports of faulty equipment received before 4pm to our repair contractor on the same day...</p>
